

US Congressional District Exports to China: 2000–06

110th Congress

Editor's Note:

This study uses county-level export data to provide estimates of congressional district exports to China. Because some congressional districts include parts of the same counties, and because the county export data cannot be apportioned to the separate districts, the total of a state's estimated individual congressional district exports in this study may exceed the state's actual total exports to China.

For state-level data, please see USCBC's report on state exports, available at

http://www.uschina.org/public/documents/2007/04/uscbsc_us_exports_china_by_state_2000-06.pdf
